Introducing CAREONCHAIN

CAREONCHAIN is a Blockchain-based HYBRID technology focused on Research and Development .

CAREONchain is the first blockchain

Operating Platform for Hybrid Car Technology & its Research & Development

what problem does it Solve?

CAREON blockchain platform is develop for interaction between researchers, developer and hybrid vehicle manufactures. Thus making whole world a RESEARCH AND DEVELOPMENT centre for this upcoming technology.

CAREON chain platform will unite all the research work from throughout the world and provide the best of it to automotive sector manufacturers. It is decentralize network that allows storage of all research work from college projects to Scientifically proven research for development of hybrid technology in automotive sector

Who might benefit from our services?

- 1 . Crypto holders, traders and investors**
- 2. EXCHANGES**
- 3. ICOs**
- 4 . Researcher and Devlopers**

How This Data Will Be Useful

CAREONchain API

careonchain mobile app

**Why will the demand for
the REO Coin grow?**

CAREON is focused on the hybrid vehicle sector and its importance in our everyday lives. We all need to travel to different places from day to day for different purpose and many do easily 4 – 5 times per day, 365 days per year, for an average of 80 years.

We believe that fuel (diesel, petrol, coal, etc) drives the different vehicles and thus causes 85% of earth air pollutions which is directly or indirectly affecting human life and atmosphere and causes global warming.

Apart from clean water, access to adequate CLEAN air is the primary concern for most people on the Earth.

The governments in various countries are also encouraging the adoption of hybrid cars by mandating stringent emission standards and providing various incentives and subsidies to buyers, which is likely to reflect positively on the sales of these vehicles in the near future. The global market for hybrid cars, which stood at US\$102.88 bn in 2015, is anticipated to touch US\$398.90 bn by 2024, rising at a CAGR of 16.50% between 2016 and 2024.

Development of CAREONchain Platform (Road Map)

(Q2 2017)

Concept Development

(Q3 2017)

White paper and project concept approval

(Q4 2017)

Planning for Pre-ICO

(Q1 2018)

**Development of website and Hybrid
Blockchain**

(Q2 2018)

Coins pre-sale to early-stage investors and public sale launch

(Q3 2018)

Coins will be unlocked and launch in some exchanges in future

(Q4 2018)

Alpha version of the CAREONchain Blockchain will start the execution

(Q1 2019)

Launch a website To develop a software and a website where all the research for hybrid technologies can be shared from throughout world

(Q3 2019)

Smart Contract Creation like Ethereum

Referral Bonus

You will get

15 REO

Coins

Referred user will get

40 REO

Coins

Whitelist Bonus

You will get

20% REO

Coins of total
purchase
